PROFESSIONAL SUMMARY

Motivated and detail-oriented Data Analytics and AI enthusiast with practical knowledge of Python, SQL, Machine Learning, Data Visualization, and Business Intelligence. Experienced in analyzing datasets, building predictive models, creating dashboards, and developing AI-powered applications. Passionate about transforming raw data into actionable insights to support business decisions.

TECHNICAL SKILLS

- Programming Languages: Python, SQL, Java
- Data Analysis: Pandas, NumPy, Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA)
- Visualization: Tableau, Matplotlib, Excel
- Machine Learning: Scikit-learn, Logistic Regression, Linear Regression, KNN, K-Means, XGBoost
- Databases: MySQL, PostgreSQL, Supabase
- Web Technologies: HTML, CSS, JavaScript, Flask
- Tools: Git, GitHub, Jupyter Notebook, VS Code
- Concepts: Statistics, Data Visualization, Business Analytics, Predictive Analytics, Feature Engineering

PROJECTS

Student Career Guidance Analytics System

Technologies: Python, SQL, Tableau, Machine Learning

* Built a recommendation system to guide students based on academic performance and interests.
* Performed exploratory data analysis to identify learning trends.
* Created interactive dashboards for visualizing student performance.
* Applied machine learning algorithms for recommendation generation.

Retail Scrap Market Analytics

Technologies: Python, SQL, Pandas

* Designed a marketplace analytics solution for scrap dealers.
* Analyzed pricing trends across different materials.
* Created reports for inventory movement and sales forecasting.
* Built dashboards for monitoring supplier and customer activities.

EDUCATION

Bachelor of Technology (B.Tech)

ISL Engineering college

Artificial Intelligence & Data Science

(2024-2028)

STRENGTHS

* Data Cleaning & Preparation
* Problem Solving
* Critical Thinking
* Dashboard Development
* Business Intelligence
* Statistical Analysis
* Machine Learning Basics
* Fast Learner
* Team Collaboration

ACHIEVEMENTS

* Built multiple real-world analytics project concepts.
* Experienced in creating business dashboards using Tableau.
* Strong understanding of SQL queries, joins, aggregations, and data visualization.
* Hands-on experience with predictive analytics and machine learning fundamentals.
